

Work Pro® Series

Air Compressors

Single Stage — Electric

Quiet Technology

AM1-HE15-03QM

Ideal for contractors and do-it-yourselfers to power brad staplers, nail guns and small air tools instead of larger, bulkier air compressors. It can be used indoors where there are noise restrictions.

Compressor Pump:

Oil-free pump | Copper discharge hose | Cartridge air filters

Motor:

Induction motor | Thermal overload motor protection | 6-foot power cord

Frame:

Powder coated 3-gallon tank with protective roll cage design

Components:

Regulator and two gauges for tank and outlet pressure | Drain and pressure relief valve | Dual industrial interchange quick connect fittings | Start/stop control set at 95 to 125-PSI | Integrated control panel for easy operation

Miscellaneous:

Low noise level – less than 70dBA
